

The EMAG Group is one of the most important manufacturers of multi-functional production systems for machining precision metal parts.

Whether the line has turning machines, grinding machines, gear cutting machines, laser welding machines or machining centers – the EMAG Group offers tailor-made and innovative manufacturing solutions at the very highest level for almost every application.

We are seeking to recruit the following member of staff for our branch office in China:

Machine Set-up Supervisor m/f

Your field of duties:

- Responsible for the coordination of set-up technicians at EMAG Taicang
- Responsible for quality- and deadline-compliant production of the customer machines in the plant and on the premises of our customers (chiefly VL 3/5 and VSC 400 Modular)
- Setting and converting the CNC-controlled turning machines on the basis of the workpiece drawings and the tooling plans
- Elaborating machining programs and making modifications
- Performing process optimization measures
- Responsible for preliminary and final acceptance
- Performing quality inspections
- Training and instructing EMAG staff and our customers

Your technical and personal qualifications:

- Supervisor, machining mechanic or comparable training with several years of career experience
- Technical knowledge of machining with a defined cutting edge
- Knowledge of chucking and handling of workpieces
- High level of knowledge of FANUC 18i/32i or SIEMENS 840 DsL CNC programming
- High level of knowledge in operation of state-of-the-art CNC-controlled turning machines
- Good written and spoken proficiency in English
- High degree of ability to cope with pressure, flexibility, ability to communicate and ability to work as a member of a team
- Willingness to travel
- Willingness to work in the long term at our site in China

You can expect a diverse and challenging range of tasks in a modern company with an active, value-oriented management culture.
